Dear Hal:

This will be a very brief letter because the enclosed letter (copy) will provide most of the information.

As you will recall from my phone conversation with you this past Saturday I mentioned that I had received a letter from an individual who had heard me speak (on that radio program KSFO which was the same program which the station told me would contact you but never did) and also read some of my articles.

One of the articles of mine he read intrigued him enough to make him write the enclosed copy. My article was on Oswald as an intelligence agent and in it I said it was my belief Oswald was linked to ONI rather than FBI or CIA.

As you can see from the enclosed he disputes me on this and even disputes Oswald having crypto clearance. There are other points he raises that I do not agree with and when I called Mr. Temple I mentioned them but told him I'd send a letter on my disagreements (in fact, right after I write you I'm writing to him). I also asked if I could meet with him in the near future and sit down with him to show him areas of concern that he apparently is unaware of. He was quite interested in meeting me & left it up to me as to the date. I said I'd be in touch.

Before I do see him please look over his letter. I mentioned on the phone that you had received info from the Navy that Oswald did have crypto. He said he had heard of you but I gathered he knew next to nothing of your work.

My guess is that Temple was in ONI, but well after the time of Oswald but there could be some important questions we could ask of him. I'm not sure I agree on his evaluations of ONI - CIA - etc.

Best,
